# ABOUT US

**Kernel Technology** is a leading IT supplier company that provides innovative and cost-effective solutions to meet the ever-changing technological needs of businesses in the Kingdom of Saudi Arabia. Established in 2020, we have been providing cutting-edge IT products to clients in various sectors, including oil and gas, construction, healthcare, finance, education, and government, among others.

At **Kernel Tech**, we specialize in offering a wide range of IT solutions, including hardware, software, networking, and security services.

Our team of highly skilled and experienced professionals works tirelessly to provide customized solutions that are tailored to meet the specific needs of each client.

We analyze unique client requirements to deliver tailored hardware solutions (servers, storage, desktops, laptops, peripherals) from top brands (HP, Dell, Lenovo, Asus, Cisco).

Additionally, we provide software solutions (OS, productivity suites, security software) and offer secure and efficient networking services, including design, implementation, wireless solutions, and security services.

# Message

---

Our team of experienced professionals is dedicated to ensuring that our clients get the best technology solutions to meet their business requirements.

We work closely with our clients to understand their unique needs, and then design customized solutions that deliver the desired results

# Vision

---

At our core, we believe in offering affordable and cost-effective solutions that help organizations achieve their goals without breaking the bank.

We source our products from industry-leading manufacturers, ensuring that our clients get high-quality products that meet global standards.

# Values

---

In essence, we are committed to helping businesses harness the power of technology to drive growth and success.

Partner with us today and enjoy the benefits of working with a reliable and experienced IT supplier company that always puts its customers first.

# Partnership

---

Our goal is for our customers to come back. Our goal is to build partnerships, so our customers don't have to look for new IT products provider ever again. We are honest about the availability and delivery timeframes. We are proactive in finding the optimal solution for a given project even if it means offering less expensive but more suitable products than the customer originally requested. We are flexible in offering a variety of payment methods including purchase credit for established returning customers.
